28 runners predicted their time to run a 5 mile stretch of the Newport News Park Bikeway. Runner closest to their prediction wins.

In a first for the Tom Ray Memorial Predict Your Time 5 Miler, the runner with the closest prediction was also the fastest runner of the event. Greg Dawson was off by a single second from his predicted time of 30:00 for running 5 miles on the Newport News Park Bikeway. 2010 PTC Grand Prix Champion Peter Wolf was a close second with a time that was only 3 seconds off his prediction and Crystal Davenport had the 3rd best prediction and was also the fastest woman to run the 5 Mile course.

This run, which is the first of the PTC Summer Fun Run Series, was renamed in honor of Tom Ray, member of the VA Peninsula Road Running Hall of Fame and Race Director for this event for the last 10 years before passing away earlier in 2011.
